

SEVEN EASY STEPS TO A NEW COUNTERTOP

Follow these easy steps to get an estimate from Delorie Countertops & Doors:

Step 1: Grab a pencil, measuring tape and/or ruler

Step 2: Using the back of this page, roughly draw the shape of your countertop space. Keep in mind your drawing does not need to be to scale.

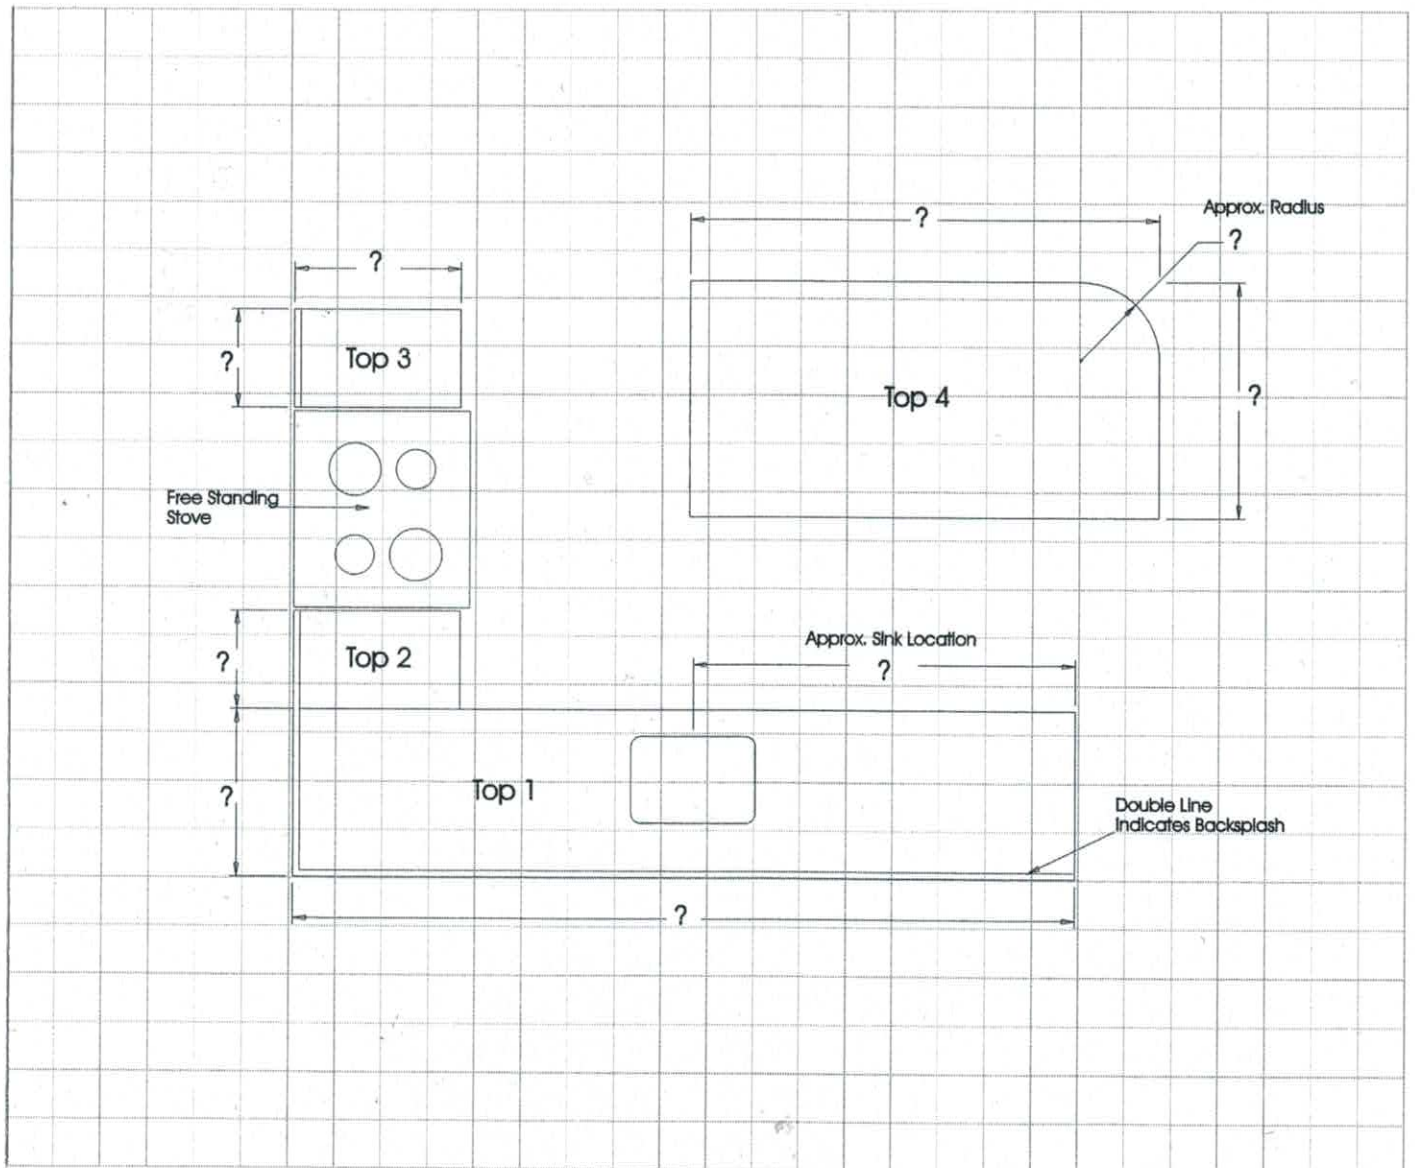

Step 3: Using your tape measure, measure in inches the dimensions of all the countertop space you would like surfaced. Put the measurements on your rough drawing as you go. Please indicate the approximate location of any required cut outs for undermount or drop-in sinks, drop-in cooktops, etc. (See example below). If you would like a backsplash, please indicate where you would like it by drawing a double line along that length of countertop. It is best to round up to the nearest 1/2" for pricing purposes.

Step 4: Mark each top (Top 1, Top 2, etc.)

Step 5: Show rounded corners and any special details if required.

Step 6: In the section for special instructions, indicate product (ex. Corian, Formica), color, edge profile, and any other information that will help us quote your countertops as accurately as possible.

Step 7: Fax your drawing to Delorie at (954)970-7636 for an estimate.
